

Contest Criteria

Entries should reflect the given topic and will be judged heavily based on the interpretation and effort to make that connection. Entries should not simply be manufactured to fit the topic, but some creative interpretation will be permitted.

STN Challenge entries are judged by industry professionals. Critiques and comments are subjective and will not always be consistent with what is taught in the classroom. The judges are not teachers. They are professionals who have offered their expert opinion and feedback, based on years of work experience in the TV/Film industry. Judges will evaluate all of the entries using an appropriate set of criteria. **Please read and understand all criteria before beginning the contest.**

See below for the specific criteria and standards related to each STN Challenge category.
